DIRECT ENTRY AS GRADUATE

TRAINEE FOCUS TECHNOLOGY

(M/F/D)

YOUR TASKS

- The "Start up! Trainee program" provides young talents with an entrepreneurial mindset and gives the opportunity to learn, thrive, gain diverse insights into the organization and to explore new topics
- You'll have 5 assignments, at least 1 abroad, with a period of 3 months in a total period of 18 months
- Your first assignment will be within a tech environment and after that you decide which topics you will dive deep into
- Fridays are spent within the Start up! Community on "Magenta Friday", where all Trainees come together to work on joint projects

YOUR PROFILE

- Successfully completed any Engineering degree
- Good coding skills or specialized knowledge (e.g. IT, Cyber Security, etc.)
- Relevant internships and / or initial professional experience with a focus on IT or Technology
- International experience
- Social commitment and / or entrepreneurial project work
- Fluent English (Level C1) and willingness to learn German independently

YOUR ADVANTAGES

- We offer a wide range of further education opportunities
- Working from home
- With our flexible working time models, we offer the opportunity to work self-determined

LOCATION

- Bonn, Germany
