

With Intel you won't follow the market - you will lead!

Intel, the world's largest manufacturer of microprocessors, is also a leading manufacturer of computer, networking and communications products and a provider of infrastructure to and services for the worldwide Internet economy. Additional information about Intel is available at www.intel.com.

Intel's strategic equity investment group, Intel Capital, manages one of the largest corporate venture programs in the technology segment, with worldwide investments and support. Holding equity stakes in more than 550 companies worldwide, Intel's investments outside of the United States span over more than 20 countries across 5 continents. Intel Capital is responsible for investing in early-stage companies to increase demand for existing products and services, ultimately expanding new business objectives for Intel.

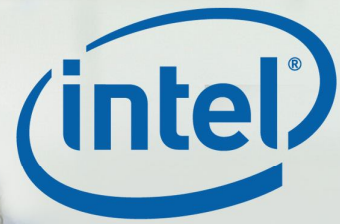

Internship Business Development

Location: Munich, Germany/#547420

Intel Capital is a global commitment aimed at investing and supporting profitable enterprises that will drive internet growth, enable new usage models, and advance industry standards. We build companies using our worldwide customer base, technological knowledge, extensive access to capital, and the power of the Intel brand. While financial return is imperative, our greater mission is to spur innovation and inspire the entrepreneurial spirit to thrive. We have an excellent internship opportunity in Munich, Germany for a student who is result-focused and has a good understanding of business concepts.

As an intern you will be fully integrated into the daily work of business development in the Europe and/or Middle East and/or Africa (EMEA) region. This is your opportunity to work within an international working environment. In this position, your responsibilities will include but not be limited to:

- Supporting the match-making between Intel Capital's Portfolio Companies (businesses Intel Capital invests in) and Intel's end-customers to generate business for the Portfolio Companies and support the end-customers with leading-edge technology solutions
- Supporting planning and execution of match-making events, serve as interface and contact for our Portfolio Companies
- Responsible for on-site event support
- Collecting and aggregating metrics to evaluate and optimize match-making events
- Working with EMEA country teams to increase visibility of the program and manage opportunity pipeline

A photograph of a man and a woman in an office environment. The man, on the left, is wearing a blue sweater and is looking towards the woman. The woman, on the right, has dark curly hair and is wearing a red top. They are both smiling and looking at a laptop screen. The background is a blurred office space with other people and computer monitors.

With Intel you won't
follow the market - you will lead!

This offer is for an internship for 12 months, ideally beginning in May, June, or July. You are currently pursuing a degree in management, marketing, venture capital, investment or any other relevant subject. To qualify for this position you must have English language skills (both written and spoken). You will need to have strong communication skills to work with various internationally based teams. Extra language capability is preferred. Additional qualifications include:

- Customer orientation and ability to analyze business requirements
- Self-motivation and drive
- Good project management skills
- Ability to be an open communicator and work interactively in a (virtual) team
- Capability to work to tight deadlines and within flexible hours
- Legally entitled to work in Germany
- Software skills (Excel*, PowerPoint*, Outlook*)
