

Program IRA Winter Semester 24/25

Expert Talks and MD progress talks

Expert Talks: Speakers from our university will explain their expertise and career. The presentations should be given in English and should be 45 - 60 min long.

MD progress talks: The presentation should be 20 min long followed by 10 min discussion time.

The IRA BIOME core meetings take place on Thursdays from 5:00 p.m. in the MFZ seminar room 0.019.

Date	Speaker	Title
October 10th 2024	Ali Ata Tuz	Breaking the NET- sterile tissue injury caused immunosuppression in clinical and preclinical conditions
October 17th 2024	Annika Schubert	
November 7th 2024	Hanah Khachani (MD)	Impact of albumin-derived oxygen carriers on monocytes
November 14th 2024	Fabian Szepanowski	Neuroinflammation and regeneration in the peripheral nervous system
November 21st 2024	Lea Kolk	The role of the programmed cell death protein 1 immune checkpoint in reperfused acute myocardial infarction
November 28th 2024	Nina Hagemann	Microvascular network remodeling in the ischemic brain and peri-infarct cortex revealed by light sheet microscopy
December 5th 2024	Michael Fleischer	
December 12th 2024	Jacob Paessens	Atrial cardiomyopathy detected after ischemic stroke
January 9th 2025	Ulf Brockmeier	
January 16th 2025	Linda Schmidt	
January 23rd 2025	Ayan Mohamud Yusuf	The influence of extracellular vesicles on ischemic stroke outcome and their therapeutic potential.

Ischemia, Reperfusion and Angiogenesis BIOME Core
