Join us and get involved!

Are you working on issues related to immigration, emigration or asylum and interested in networking with others? Are you working in the broad field of migration and "integration" and eager to collaborate on new initiatives? Whether it's a spring conference, a lecture series, a reading group, publications or podcast – the Junior Research Network of the Interdisciplinary Center for Integration and Migration Research (InZentIM) provides the platform!

We are an interdisciplinary and dynamic group of students, PhD students and postdocs who have been working together since 2017 on different projects related to migration and integration research. We consider ourselves to be a forum for exchange and support, inviting anyone interested to add their own ideas and launch projects together. Starting on 15 October 2024, we will shape the programme for the next one to two years together with you. Come and join us!
