Vacancy: SHK (“Studentische Hilfskraft”) – Undergraduate Assistant

The research group of Prof. Dr. Jens Siveke at the West German Cancer Center is looking for an undergraduate assistant to support with scientific work within the P1 project of the DFG Graduiertenkolleg (GRK 2672).

Your main tasks:

- Experimental work in the lab (mostly support at immunohistochemical methods, cutting, preparation and staining of FFPE blocks; PCR, Western Blot, cell culture)
- Support in routine lab work (lab-ware washing, autoclaving, lab maintenance-cleaning, cell culture maintenance)

Your Profile:

- Currently enrolled as Student at a University
- Responsible and reliable
- Flexible to a certain extent (flexible work hours possible) and able to work in team

Working Hours:

- 10 hours a week
- Flexible work hours possible

Please send your application and a short CV via email to Dr. Marija Trajkovic-Arsic
marija.trajkovic-arsic@uk-essen.de .
