

WATER GRADUATE SCHOOL COLLOQUIUM

WINTER SEMESTER 2024/2025

Sarah Rockel

Instrumental Analytical Chemistry, UDE

2D-LC-IRMS - New possibilities for stable isotope analysis in aqueous samples

Frank Steiner

Thermo Fisher Scientific

Increasing the productivity of HPLC method development – Opportunities to get ready for the lab of the future

Wednesday,
18.12.2024
4 pm

Henrike Walther

Urban Water Management, Hydrology and Hydraulic Engineering, HRW

The BoRSiS Project: Balancing Blue-Green Infrastructure for Urban Resilience

Christoph Bennerscheidt

European Association for Ductile Iron Pipe Systems

N.N.

Wednesday,
15.01.2025
4 pm

Nazmun Nahar

Aquatic Ecology, UDE

Physiological responses of benthic macroinvertebrates under the influence of parasites and herbicide metazachlor

Nicolai Bätz

Emschergenossenschaft/Lippeverband

KliMaWerk - Water: Landscape Sustainable Management of Landscape Water Balance to Enhance Climate Resilience

Wednesday,
12.02.2025
4 pm

Christian Schlautmann

Aquatic Ecology, UDE

Swimming against the current, Fischliftsystem Baldeney

Markus Kühlmann

Ruhrverband

N.N.

Wednesday,
16.04.2025
4 pm
